

Wings academy of Skill Training
Organizes
A Training program on
Virtual Experimentation of Biological Techniques (Part I)

We offer professional training in the various biological techniques using the virtual simulation technology. The course work is designed to transform the individuals into good researchers. The participants will develop fundamental practical skills required for every researcher. This course gives a virtual practical experience which will provide a basis for the optimisation of future protocols

Eligibility

Candidate with B. Sc. / M. Sc. in Biological Science, Medical Science, Chemistry, Botany, Zoology, Pharmacy, Agriculture, Biochemistry, Biotechnology, Molecular Biology and other relevant disciplines

Course Duration : 30 hours

Course Outline:

BIOPROCESS TECHNOLOGY
BIOCHEMISTRY
CELL AND DEVELOPMENTAL BIOLOGY
GENETIC ENGINEERING AND BIOTECHNOLOGY
MOLECULAR BIOLOGY
MICROBIOLOGY
IMMUNOLOGY
BASIC TOOLS FOR BIOINFORMATICS

Registration Fees:

For faculty and Scholars = Rs 1500 /-

For P.G and U.G Students = Rs 1000 /-

(For bulk Registration of 5 or more participants a discount of Rs. 200 will be given)

Certificate and a procedure kit will be provided on the completion of the course.
